RUNNING

RUNNING PREVENTION/INJURIES

Injury: Patella Tendinitis/Chondromalacia
Knee: Kneecap Stabilizer
Product: JK-1
Tech: Low profile support with padding, Flyweight fabrication and designed with an individualized fit.

Injury: Light Knee Support
Knee: Knee compression
Product: EK-1
Tech: Compression Knee Sleeve with closure, cooling and full range of motion

Injury: Patellar Tendinitis/Jumpers Knee
Back: Patellar Compression
Product: JK-Band
Tech: Padding with individualized fit applies compression to patellar tendon.

Injury: Ankle Sprains/Support
Ankle: Inversion Sprain Stabilizers
Product: A1-S
Tech: Internal stabilizers with anatomically (left or right) correct lightweight design, provides protection from ankle sprain, low profile design.

Injury: Plantar Fasciitis
Foot: Plantar Arch Support
Product: HA-1 Mesh
Tech: Arch support offloads pressure with gradual compression calf sleeve enhances blood flow and improves performance.

Injury: Plantar Fasciitis/ Muscle Soreness/ Muscle Fatigue
Elbow: Gradient Compression Plantar Fasciitis Sock
Product: HA-1 Compression
 Arch support offloads pressure with gradual compression calf sleeve enhances blood flow and improves performance.

Injury: Shoulder Strains/Compression
Shoulder: Shoulder Stabilizer
Product: Shoulder Wrap
Tech: Compression shoulder wrap with individualized fit, full range of motion with Flyweight construction.

Injury: Moderate Knee Support
Arm: Knee compression
Product: EK-3
Tech: Dual compression Knee Sleeve with closure, cooling and full range of motion.

Injury: Ligament Strains and Support
Knee: IT Band Syndrome
Product: RK-1
Tech: Corrects issues causing IT Band Syndrome with anatomically correct support, flyweight fabrication and ventilation cooling.

Injury: Muscle Soreness/Delayed Muscle Soreness, Muscle Fatigue
Calf: Gradient Compression Calf Sleeve
Product: LC-1
Tech: Gradual gradient compression calf sleeve, enhances blood flow and

Injury: Tendon Strains/Supports
Ankle: Achilles Tendon Strain
Product: AT-1
Tech: A-strap and individualized fit allows for a taping function while heel lock ensures heel stabilization.

RK-1

Sizes:
S - LL

FOR IT BAND SYNDROME

The RK-1 prevents inner rotation of the knee and supports the knee while running.

Reduce stress on the knee.

Provides patella tendon stability.

3D cut to fit the running form.

AT-1

Sizes:
M - L

FOR ACHILLES TENDON

The AT-1 is a brace exclusively for the Achilles tendon and provides stability and effective support.

Stabilizes the Achilles tendon.

Stabilizes the heel and reduces stress on the Achilles tendon.

Restricts the extension of the ankle.

3D cut to fit the movement.

JK-Band

Sizes:
S - LL

FOR PATELLAR TENDON SUPPORT

The JK BAND is designed to support for jumper's knee and growing pains and reduces stress on the patellar tendon with proper compression.

PT pad

-Proper compression for around the kneecap.

-Easy to put on.

JK-1

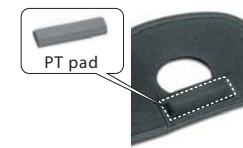

Sizes:
S - L

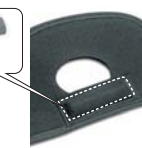

PATELLAR TENDON AND PATELLA SUPPORT

The JK-1 provides patellar support and reduces stress on the patellar tendon for senior children with growing pains.

PT pad

Compression material

Breathable material

Reduces stress on the kneecap.

Comfortable.

Easy to put on.

IW-1 set

Sizes:
Free

ICE BAG SET DESIGNED FOR EASY HANDS-FREE APPLICATION TO ARMS AND LEGS

The IW-1 SET provides cooling and compression for arms and legs. The inner holding strap allows for one-handed application.

Adjustable compression levels.

Easy to put on.

With ice bags of all sizes

HA-1 Compression

Sizes:
S - L

ARCH SUPPORT AND CALF AND HEEL STABILIZATION

The HA-1 Compression provides gradient compression and support for the calf. The unique knitting technology supports the heel and the plantar arch.

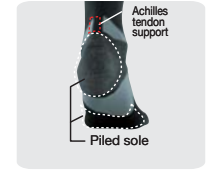

Gradual Compression

Arch support. Heel control technology to enhance heel stabilization.

FrontWave to support natural movement.

Support the Achilles tendon. Piled material to alleviate impact.

A1-S

Sizes:
S - LL

SUPPORT FOR ANKLE STABILITY

The A1-S is designed to prevent inversion ankle sprains and provides natural movement and stability.

Two straps provide stability. Renewed.

Stays adapt to ankles and fits accurately.

Thin and breathable material fabrication. Renewed.

HA-1 Mesh

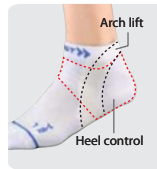

Sizes:
SS - L

ARCH SUPPORT AND HEEL STABILIZATION

The HA-1 Mesh reduces stress on the plantar arch. The unique knitting technology supports the heel and the plantar arch.

Arch support. Heel control technology to enhance heel stabilization.

FrontWave to support natural movement.

Support the Achilles tendon.

Breathable mesh material.

LC-1

Sizes:
S - LL

Calf Open toe

TO MAINTAIN STAMINA AND REFRESH FOOT

The LC-1 is a compressive stocking that reduces stress on the calf with gradient compression.

Vertical gradual compression. Natural movement in toes.

Supports from the ankle through the calf muscle.

Prevents slipping during activities.*
* Only for Open type

EK-1

Sizes:
S - LL

LIGHT COMPRESSION AND PROTECTION FOR THE KNEE

The EK-1 provides quick support with thin and light material.

Light resin stays provide more fit

*Pouch isn't included.

*Picture is just image

Thin and light, and quick support.

Comfortable material.

Easy to put on and take off.

EK-3

Sizes:
S - LL

COMPRESSION AND PROTECTION FOR THE KNEE

The EK-3 provides good support and comfort.
*New model of SK-1 and SK-3.

Thin and good support.

Perfect fit on the knee. Adjustable compression.

Stabilizes the knee without restriction.

*Picture is just image
Comfortable at back of the knee.
