

ZAMST 

WHITNEY PAVLIK
PRO BEACH VOLLEY BALL - "SANDBLASTER"

VOLLEYBALL

Injury: Muscle Soreness/Delayed Muscle Soreness, Muscle Fatigue
Calf: Gradient Compression Calf Sleeve
Product: LC-1
Tech: Gradual gradient compression calf sleeve, enhances blood flow and improves performance.

Injury: Patellar Tendinitis/Jumpers Knee
Back: Patellar Compression
Product: JK-Band
Tech: Padding with individualized fit applies compression to patellar tendon.

Injury: Back Strains or Sprains/Support
Back: Dual Back Stabilizer
Product: ZW-5
Tech: Internal dual back stabilizer with individualized fit, ventilation cooling panels and materials.

Injury: Thumb Sprains
Thumb: Thumb Stabilizer
Product: Thumb Guard
Tech: Custom with moldable thermo plastic wrap around materials and thumb anchor design.

Injury: Shoulder Strains/Compression
Shoulder: Shoulder Stabilizer
Product: Shoulder Wrap
Tech: Compression shoulder wrap with individualized fit, full range of motion with Flyweight construction.

ICE: Large Body Part Icing System
Product: IW-2 set
Tech: Customized fit with dual ice bags.

ICE: Small Body Part Icing System
Product: IW-1 set
Tech: Customized fit with individual ice bag.

Injury: Ankle Sprains/Support
Ankle: Inversion Ankle Sprain
Product: A1
Tech: Internal stabilizers with anatomically (left or right) correct lightweight design, provides protection from ankle sprain.

Injury: Ankle Sprains/Support
Ankle: Inversion/Eversion Sprain Stabilizers
Product: A2-DX
Tech: External molded exterior support structures provide enhanced, anatomically correct medial and lateral (eversion/inversion) stability.

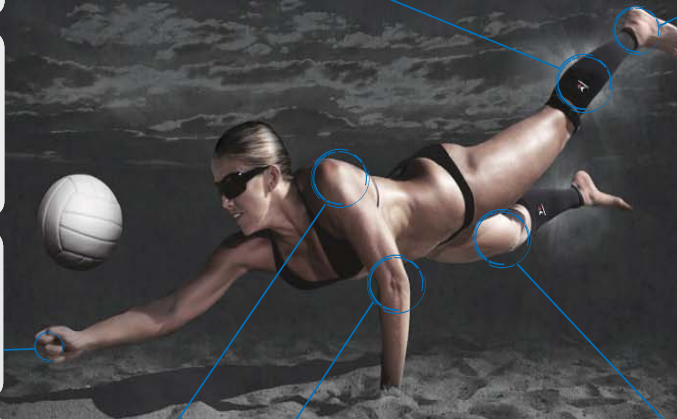

Injury: Osgood-Schlatters Disease/Patella Tendinitis/Chondromalcia
Knee: Kneecap Stabilizer
Product: JK-2
Tech: Kneecap stabilizer with padding, Flyweight fabrication and designed with an individualized fit.

Injury: Ligament Tears or Sprains/Support
Knee: ACL/PCL/MCL/LCL Stabilizers
Product: ZK-7
Tech: 4-way ligament support with individualized fit Flyweight, design and ventilation cooling.

Injury: Knee Sprains/Support
Knee: MCL/LCL Stabilizers
Product: ZK-3
Tech: Dual 2-way ligament support with individualized fit, flyweight design and ventilation cooling.

ZK-7

THE STRONGEST KNEE SUPPORT FOR SPRAINS OF THE ACL, PCL, MCL AND LCL.

The ZK-7 is designed to provide anterior stability for dynamic movement such as dash and quick stop.

Sizes:
S - 4 L

Provides an individualized fit and prevents slipping.

Comfortable compression on the kneecap.

Provides strong stability.

Comfortable.

W-strap supports the knee while body is in motion.

JK-2

ADVANCED SUPPORT FOR PATELLAR TENDON AND PATELLA

The JK-2 provides the most advanced patellar support for jumpers. The unique pad reduces stress on the patellar tendon to jump.

Sizes:
S - 3 L

Provides compression accurately on lower kneecap.

Comfortable.

Proper compression for around the kneecap.

ZK-3

MODERATE KNEE SUPPORT FOR SPRAINS OF THE LCL AND MCL

The ZK-3 is designed to provide lateral/medial stability during exercise.

Sizes:
S - 4 L

Provides an individualized fit and prevents slipping.

Comfortable compression on the kneecap.

Provides strong stability.

Comfortable.

JK-Band

FOR PATELLAR TENDON SUPPORT

The JK BAND is designed to support for jumper's knee and growing pains and reduces stress on the patellar tendon with proper compression.

Sizes:
S - L L

-Proper compression for around the kneecap.

-Easy to put on.

A2-DX

ANKLE GUARD FOR INVERSION/EVERSION WITH ANTERIOR STABILITY

The A2-DX is designed to prevent inversion/eversion ankle sprains and provides great fitting, stability, and natural movement.

Sizes:
S - LL

Unique rigid guards restrict inversion and eversion.

Thin and breathable material.

Anterior, lateral and medial support.

Prevents slipping during activities.

ZW-5

LUMBAR SUPPORT WITH TWO FLAT, SEMI-RIGID STAYS

The ZW-5 is standard type lumbar belt that enhances stability and supports dynamic performance.

Sizes:
SS - 3L

Provides compression broadly for the lower back.

Prevents slipping during activities.

Comfortable.

Built-in elastic straps.

Enhances lumbar stability.

Enhances support.

A1

ANKLE GUARD FOR INVERSION

The A1 is designed to prevent inversion ankle sprains and provides effective ankle support.

Sizes:
S - LL

Three straps provide stability.

Stays adapt to ankles and fits accurately.

Thin and breathable material fabrication. Renewed.

IW-1 set

ICE BAG SET DESIGNED FOR EASY HANDS-FREE APPLICATION TO ARMS AND LEGS

The IW-1 SET provides cooling and compression for arms and legs. The inner holding strap allows for one-handed application.

Sizes:
Free

Adjustable compression levels.

Easy to put on.

With ice bags of all sizes

IW-2 set

Sizes:
Free

ICING SET DESIGNED FOR OPTIMUM HANDS-FREE APPLICATION ON SHOULDER AND BACK

The IW-2 SET provides cooling and compression for shoulder and back. The finger loops strap allows for easy application.

*IW-2(Free Size)×1pcs, Ice bag(L)×2pcs
*Zamst Ice bag is sold separately.

Adjustable compression levels.

Finger loop strap

With ice bags of all sizes

Shoulder Wrap

Sizes:
S - L L

LIGHT COMPRESSION AND PROTECTION

The Shoulder Wrap is easy to put on and provides light support for shoulder dislocation and chronic pain.

Offers optimal fit.

Comfortable.

Adjustable compression levels.

Easy to put on.

LC-1

Sizes:
S - L L

Calf Open toe

TO MAINTAIN STAMINA AND REFRESH FOOT

The LC-1 is a compressive stocking that reduces stress on the calf with gradient compression.

Vertical gradual compression. Natural movement in toes.

Supports from the ankle through the calf muscle.

Prevents slipping during activities.*
* Only for Open type

Thumb Guard

Sizes:
M - L

THUMB GUARD WITH CUSTOM FIT

The Thumb Guard provides protection and support for thumb with a moldable thermo-plastic material.

Moldable custom fit.

Natural wrist movement.

Compact design.
